Public Comment:

Northern Plains Independent Newspaper requested the Commissioners try to reduce the special administrative meetings and additional administrative issues that are added the day of the meeting. Mr. Bach mentioned the Pre-construction meeting for the Wolf Point shop will be Thursday at 9:30 A.M. in the Commissioner's Office. Mr. Bach also stated that the County Road 2031 slab replacement project will be ready to bid out in middle of May.

Administrative Issues:

Bill Juve Questions

Questions regarding the purchase of T28N, R51E, Sec 29; NE1/4SE14:

1. It was brought to public attention that Roosevelt County purchased the above property January 31, 2017. A search of Commission notes for December 2016, January and February 2017 has no mention of this action. The only item in the notes is a claim approved for payment by then Presiding Officer Duane Nygaard. The Commissioners approved this claim at the February 7th meeting. It appears this is a direct violation of the Montana Constitution that guarantees public involvement in major decisions. Is this true that the Commissioners did not give any prior public notice of this action?

On 1-31-2017 Duane Nygaard stamped approved on the claim with no motion in a meeting to approve. The claim was signed on 2-01-2017. The abstract office was pushing for a check to close.

2. In a previous Warranty Deed concerning this property, past owners reserved all the minerals and gravel. The Warranty Deed the County received states in part: Subject to all easement, reservations, and right-of-way of record and in existence. If this is the case, who owns the gravel? Does Roosevelt County own the gravel at this location?

Roosevelt County Owns the property and 85%of the Gravel. Along with Jim Patch's family owns 15% gravel.

3. If the County owns the gravel, MCA 7-14-2124 has specific language on how the County can dispose of surplus gravel. Records show the County has been selling the gravel in direct violation of this code. Using taxpayer dollars to compete with private enterprise. Is this true?

When the Colgan pit was purchased Wolf Point Sand and Gravel had an agreement to purchase gravel for 5 years and a 3-year renewal. The Commissioners had our county attorney look into not renewing the contract because we can not sell gravel.

Wolf Point Sand and Gravel has an agreement that is valid through July 30, 2023.

4. If the County is selling gravel from this location how is it being sold, by the ton or by the yard? What is the County charging for the gravel and how is the quantity being sold measured? Wolf Point Sand and Gravel is paying \$2.50 per Yard. The pit run gravel is keep track by the ton then converted to a Yard rate.

5. If it is confirmed the County owns the gravel rights at this location why hasn't a reclamation plan been filed?

We are having a consultant firm working on this pit.

Person's Intent on County Road 2056

Appeared before the commission to pursue right of way on County Road 2056 through the court system.

Notices Mailed: NA

30 Day Decision Deadline: 05/11/2021

FINDINGS OF FACT

BACKGROUND

The proposed subdivision makes 2 lots on 27.60 acres. The current tract is used for ag purposes.

Site Description: The site is 27.60 acres of level farm ground with no existing improvements.

Easements:

- Contract and Grant of Easement for Public Highway dated June 7, 1993.
- Grant of Easement for Right-of-Way for the Assiniboine & Sioux Rural Water Supply system dated January 23, 2017

Legal and Physical Access:

The proposed subdivision has existing legal access. The subdivider has submitted an approach application to the BIA Road Department.

Current and Adjoining Uses: Residential/ Ag

Application Information

Agency or Entity	<u>Comments</u> Comment
Roosevelt County Weed Department	No noxious weed infestations are known at this time within the existing 27.6 acres. Weed plan approved 3/18/2022
Nicole Paulson, North East Montana Health Services	Response time would be between 7-10 minutes from the hospital. Adequate emergency services can be provided to the proposed subdivision, NEMHS is staffed 24/7 on EMS services and ER/Hospital services.
Kory Opp, Sheridan Electric	Sheridan Electric powerline is on the property and can provide power to the subdivision.
Lisa Patton, MDU	I estimate it's (the subdivision) appr. 1100 feet from the existing gas main.
Ashleigh Weeks, Assiniboine & Sioux Rural Water Supply System	The subject property is located within the service area of the Assiniboine & Sioux Rural Water Supply System, ASRWSS, PWS ID# 083090050, has adequate capacity to serve one water service connection to the proposed retail store.
Tom Nichols	The estimated taxes from the property with the proposed commercial building will be \$11,241.98
Casey Burke, Subdivision Administrator Site tour	The site is East of Poplar. The land is currently used for ag purposes. The land can be accessed by BIA Route 75. The tract is level with no improvements.
Shane Mintz, MDT District Administrator Glendive District	<ul style="list-style-type: none"> • The (drainage) report discusses capturing the full runoff from a 2-year, 24-hour storm in a retention pond, which is acceptable. However, the pond shown on Sheet C-4 does not appear to provide the capacity stated in the report. • The pond outfall needs to be stable and perpetuate existing runoff patterns to the intersection of US-2 and BIA-75. • Please see the attached mark-up in the drainage sheets and the hydraulics report.

	<ul style="list-style-type: none"> To maintain the integrity of traffic operations with the intersection of US Hwy 2, the southern edge of the approach to the Dollar store should be placed a minimum of 150' north of the intersection with US Hwy 2.

Summary of Probable Impacts

-Effects on Agriculture:

The project proposes to subdivide the existing 27.6-acre parcel into a 2.08-acre and 25.52-acre parcels. The 25.52-acre parcel will remain in agricultural production. None of the soil within the parcel boundary is identified as prime farmland and is classified as not prime farmland. No conflicts between the development and nearby agricultural operations are anticipated.

-Effects on Agricultural Water User Facilities:

There are no agricultural water user facilities located within the subject property such as ditches, canals, pipelines, etc. Therefore, no agricultural water user facilities will be affected by the proposed subdivision.

-Effects on Local Services:

The subdivision will be accessed by BIA Route 75. The subdivision will add approximately 636 trips per day onto BIA Route 75 for a short distance to Highway 2. Emergency responders were contacted as part of the subdivision submittal, response times were estimated to be less than 10 minutes. The proposed commercial lot will be serviced by ASRW water and will be served by an individual wastewater system. No additional costs are anticipated to accommodate the proposed subdivision. The property tax will increase from \$133.28 to \$11,241.98.

-Effect on the Historic or Natural Environment:

A request for information was submitted to the SHPO. The response from SHPO indicates that they have no record of any historic or cultural resources on the subject property. No streams or lakes are present on the subject property; therefore, no streams or lake shores will be altered. The proposed individual wastewater treatment system will be reviewed and approved by DEQ. A new drainage culvert will be installed under the new approach to facilitate existing stormwater conveyance.

-Effects on Wildlife and Wildlife Habitat:

The smaller commercial lot that will be created is immediately adjacent to Highway 2 and BIA Route 75. Highway 2 and other existing residences and business already deter wildlife from the area. The proposed retail store would draw more human activity, but the activity would be limited to normal business hours having little effect on nocturnal animals.

-Effects on Public Health and Safety:

No public health or safety hazards on or near the subdivision have been identified. Emergency Service Providers have commented that emergency response time to the subdivision would be less than 10 minutes.

Conditions of Approval

1. The final plat shall be submitted in compliance with Section II-B of the Roosevelt County Subdivision Regulations as applicable.
2. Provide proof that all real property taxes and special assessments assessed and levied on the property are paid for the current tax year; including any past delinquencies.
3. The final plat shall comply with the Uniform Standards for Final Subdivision Plats and shall be reviewed by Roosevelt County's Examining Land Surveyor and Subdivision Administrator prior to final approval.
4. Submit an application for any new addresses with the Roosevelt County GIS agent.
5. Provide approved approach permit from BIA Road Department for proposed access.
